
RAYMOND JAMES WELCOMES THE PEOPLE OF 3MACS TO A NEW LEGACY OF EXCELLENCE

We are proud to officially welcome the professionals at 3Macs to the Raymond James family. This new combination is exciting for many reasons:

- It creates Canada's leading independent investment dealer with more than 450 advisors managing over \$34 billion in client assets.
- It enables 3Macs advisors to access Raymond James' world-class wealth management solutions and award-winning research for the benefit of their clients.
- It respects the important history of 3Macs advisors who have served Canadian investors and their families since 1849. They will continue to serve their clients under the 3Macs brand as a division of Raymond James.
- It strengthens Raymond James as the home for advisors who thrive in a culture that embraces our shared values of integrity, independence, conservatism and the freedom to put their clients' needs first, always.

We are both delighted and humbled that our 3Macs partners unanimously chose to join Raymond James. Together, we are building a new legacy of excellence in Canada to better serve our clients, our communities and our colleagues.

From all of us across Raymond James, welcome to our new partners from 3Macs and the individuals and families they serve.
